

‘New E+P Technologies’ Media Pack

Finding Petroleum are hosting a special one day event on ‘New E+P Technologies’ at the Inmarsat Conference Centre.

We will be taking a look at innovative technologies, which have been developed to enable greater visibility and cost savings, in exploration and development projects. New Technologies up for discussion will include:

- Remotely Piloted Aircraft RPA's or RAV's Remote Aerial Vehicles
- Fibre Optics
- Automation and Remote Control

The Inmarsat’s spacious and versatile Lounge is used for exhibitions, while the Constellation room will house the main conference.

- Speakers from leading oil and technology companies.
- Inmarsat Conference centre is a unique and contemporary venue, providing a professional environment for running informative and interactive conferences, while also ideal for housing exhibitions and encouraging networking.

We invite you to become a part of these important events.
